

Dear Dr. Kafasi,

It's six months since you replaced my left hip and right
plus years since you replaced my
right knee. I can attest to your
competence as a great Physician
after all these years of good health.

In addition to this you are a
great person who has always
been kind and caring in all of
our meetings. I cherish your
friendship.

I apologize for my tardy
note since my operation in July
2007, and I want to thank your
entire team of assistants, nurses
Anesthetist, Anesthesiologist and
others. They all showed concern
for my comfort and welfare.
It was truly a good experience
that I had at Faulkner Hospital.
Thank you one and all.

Sincerely,
John Sullivan
